Deplores Big Expenditure of Money for Entertainment of German Visiter-Sharp Tilt With Boutell and

Representative Wheeler (Dem., Kv.) stirred the House of Representatives yesterday as it has not been stirred before this session. In most scathing language he denounced what he termed the "flunkyism, truckling, and disgraceful sycophancy of the representatives of the Republic at the feet of Great Britain." He charged Secretary Hay with responsibility for this state of affairs, and declared that since 1896 our diplomatic policy, which was to keep aloof from entangling alliances, had undergone a change.

He referred to the recently published stories of the attitude of Great Britain toward the United States during the Spanish-American war, and declared that if the reports of Lord Pauncefote's conduct were true that he should be sent across the water by the first steamer.

Denounces England.

He denounced Great Britain in unmeasured terms, and ridiculed her professed friendship for the United States. Before he concluded, Mr. Wheeler paid his respects to the "shoulder-strapped, goldlaced flunkies" whom the Administration, he said, is to send to England to "bow the knee and kiss the hand of some King." He characterized the present Secretary of State as a "pitiable flunky," and made some pointed comment upon the suggestion of Miss Alice Roosevelt, as the daughter of the President, going to witness the coronation.

ability to secure the removal of Commis-sioner Evans. The welfare of the veter-ars and the honor of the Government de-Mr. Wheeler also made a sensational attack upon the proposed reception to Prince Henry, whom he referred to as a Mr. Evans, particularly because of his treatment of Captain Johns.

The House had resolved itself into Committee of the Whole for the consideration of private pension bills, when Mr. Wheeler obtained the floor under unanimous consent to make a few remarks. The big Kentuckian had not proceeded far before he had the attention of every member in the House, and others began to pour in from the cleakrooms and commit-

Wheeler began by referring to the notoriety which is now being given in this country to nobility. He said our foreign polley had changed within recent years, "and for the first time we witness," he said, "the President of the United States, aided and egged on by a pitiable flunky in the State Department, stretching his hands across the water to embrace the historic enemies of the American people.

Made a Laughing Stock.

"We have made ourselves a laughingstock at every court in Europe," he continued, "because of the flunkyism, the disgraceful sycophancy of the representa tives of the Republic at the feet of Great Britain; and now, when it serves the purpose of some other great nation, the pitinble speciacle is presented, not only to the liberty-loving people of the Repub-lic, but to the world, that we have been hugging to our bosom during the last five years a nation that has systematically and persistently attempted to destroy the liberties of the American people since the ttle of Yorktown.
"We find now that despite the fact that

the present Administration is afraid, ever in the face of its great majority, to nak an appropriation of \$50,000 or \$100,000 to pay some shoulder-strapped, gold-laced flunky to cross the water, and bow the knee and kins the hand of some English King, that while this very pitiable spec-tacle is being presented to us in every newspaper of the Republic it is being heralded abroad that in 1898, when w were seeking to strike the shackles of seridom from off the heels of Cuba, that mation was then secretly in our own cap-ital, attempting to form a coalition of the great Powers of the world to prevent that interposition.

Destroys Our Integrity.

"We are destroying the integrity and the pride and the intelligence and the Government. I have a respect for the present occupant of the White House, I to be palatable to the average Republican partisan. A little quixotic, it is true, hasty tempered, full blooded, and not ex actly desirable to many of that character of our citizens; and I indulged the hope that the lingering element of American-ism would induce him at the first oppor-tunity to boot out that man in the State Denartment who, in my humble judgment has brought us to this humiliating condi-

He quoted the remark of Mr. Croker to the effect that Tammany circulated no campaign literature which could not be pamphlets containing statements of revolting facts it was Mr. Croker and his cohorts who furnished the facts."

Mr. Villard spoke of the raising of \$20,000 for the Low campaign by the roman's clubs, and said that some of the methods used in raising this money was unique. Clergymen spoke from their pulpits and circulated campaign literature from their churches, and milliners sent out pamphlets in their bandboxes. Josephine Shaw Lowell, Grace H. Dodge, Mrs. James B.
